

APPSUITE: UPDATE 3.0

Swipe left to find out what's new!

SWIPE LEFT

64 BIT **NEW**

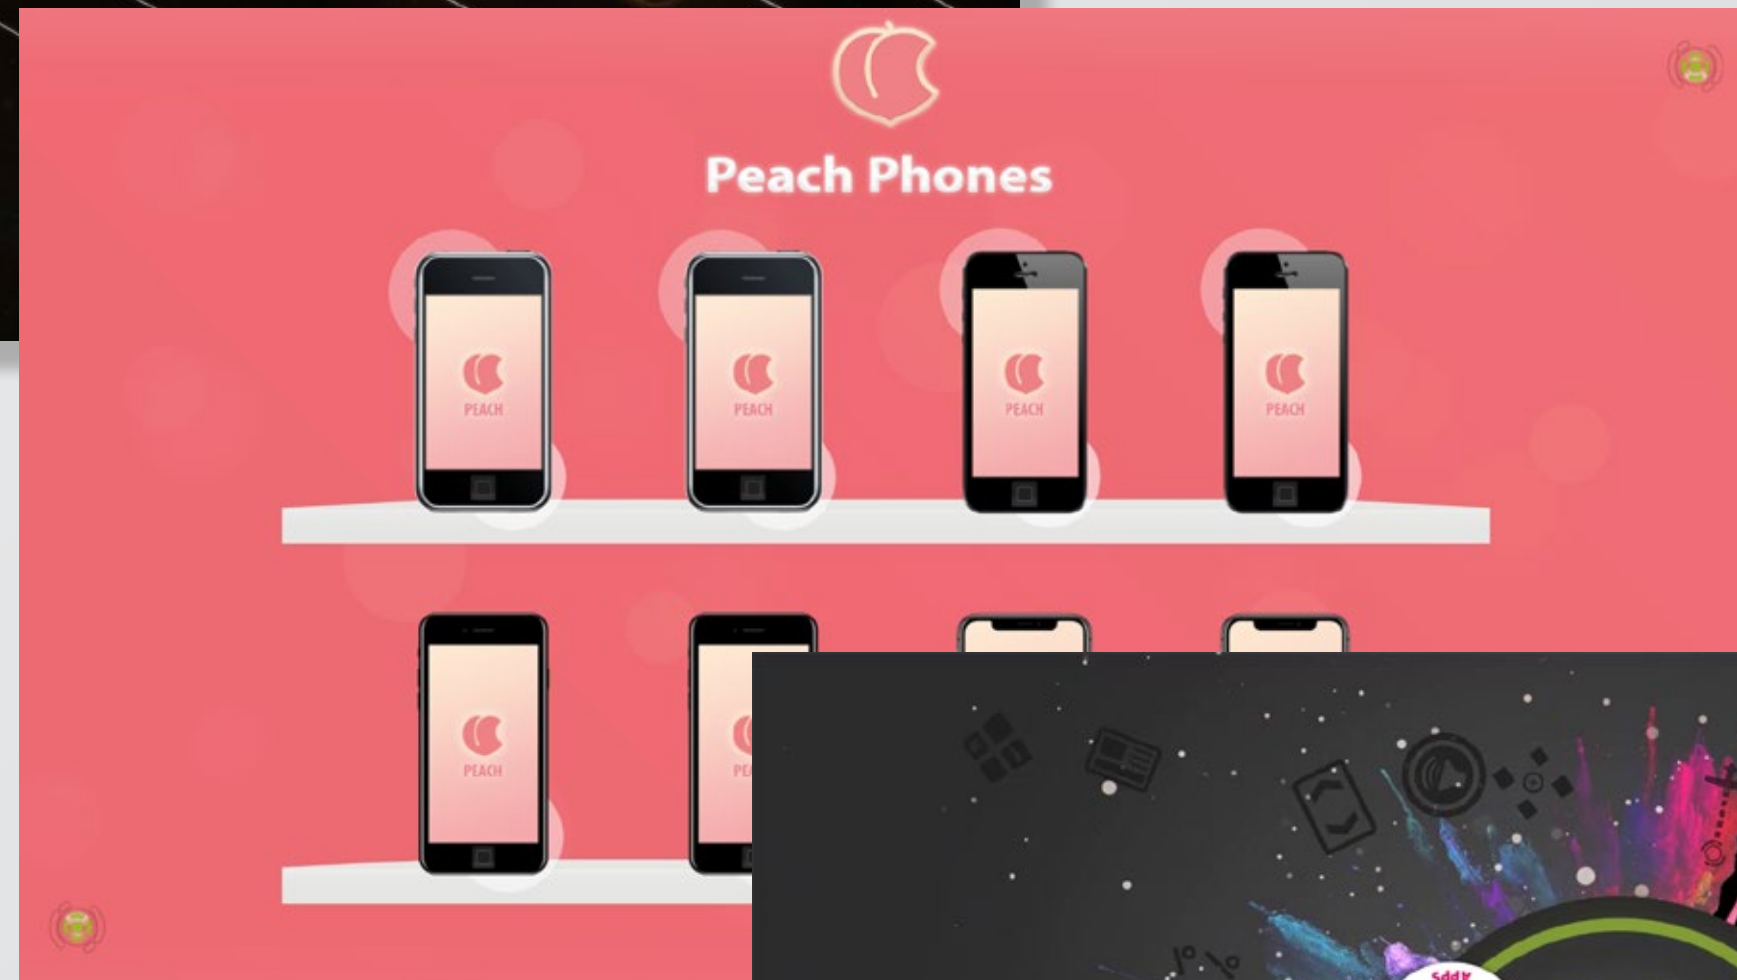

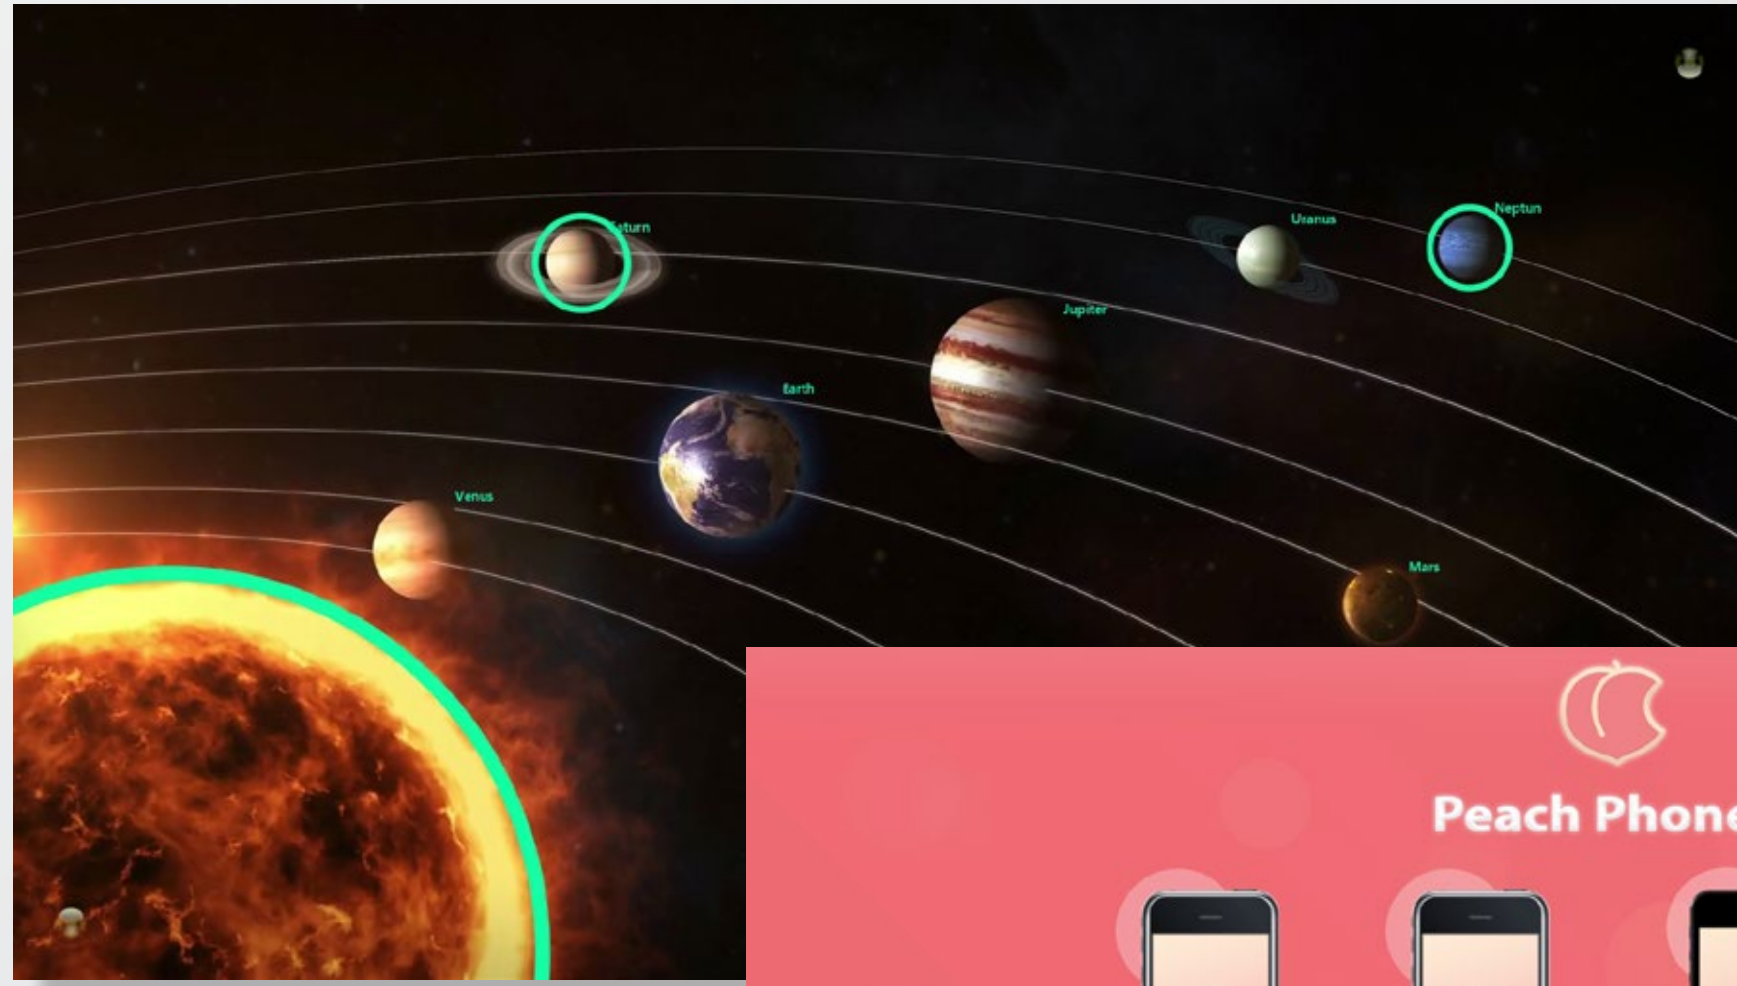

Confined by the 32-bit memory capacity so far only a maximum of 3GB RAM has been available.

With the current 64 bit version of AppSuite this chapter is history and the complete RAM availability is being utilized. Through preloading of content apps start and run more smoothly.

Also significantly more media can be displayed in higher resolution at the same time.

NEW DEMO PROJECTS NEW

We constantly provide our partners and clients with new demo projects to showcase the apps and features of the AppSuite.

In order to download the new AppSuite_Public-Demo the current version has to be deinstalled/ deleted first.

APPSUITE: UPDATE 2.7

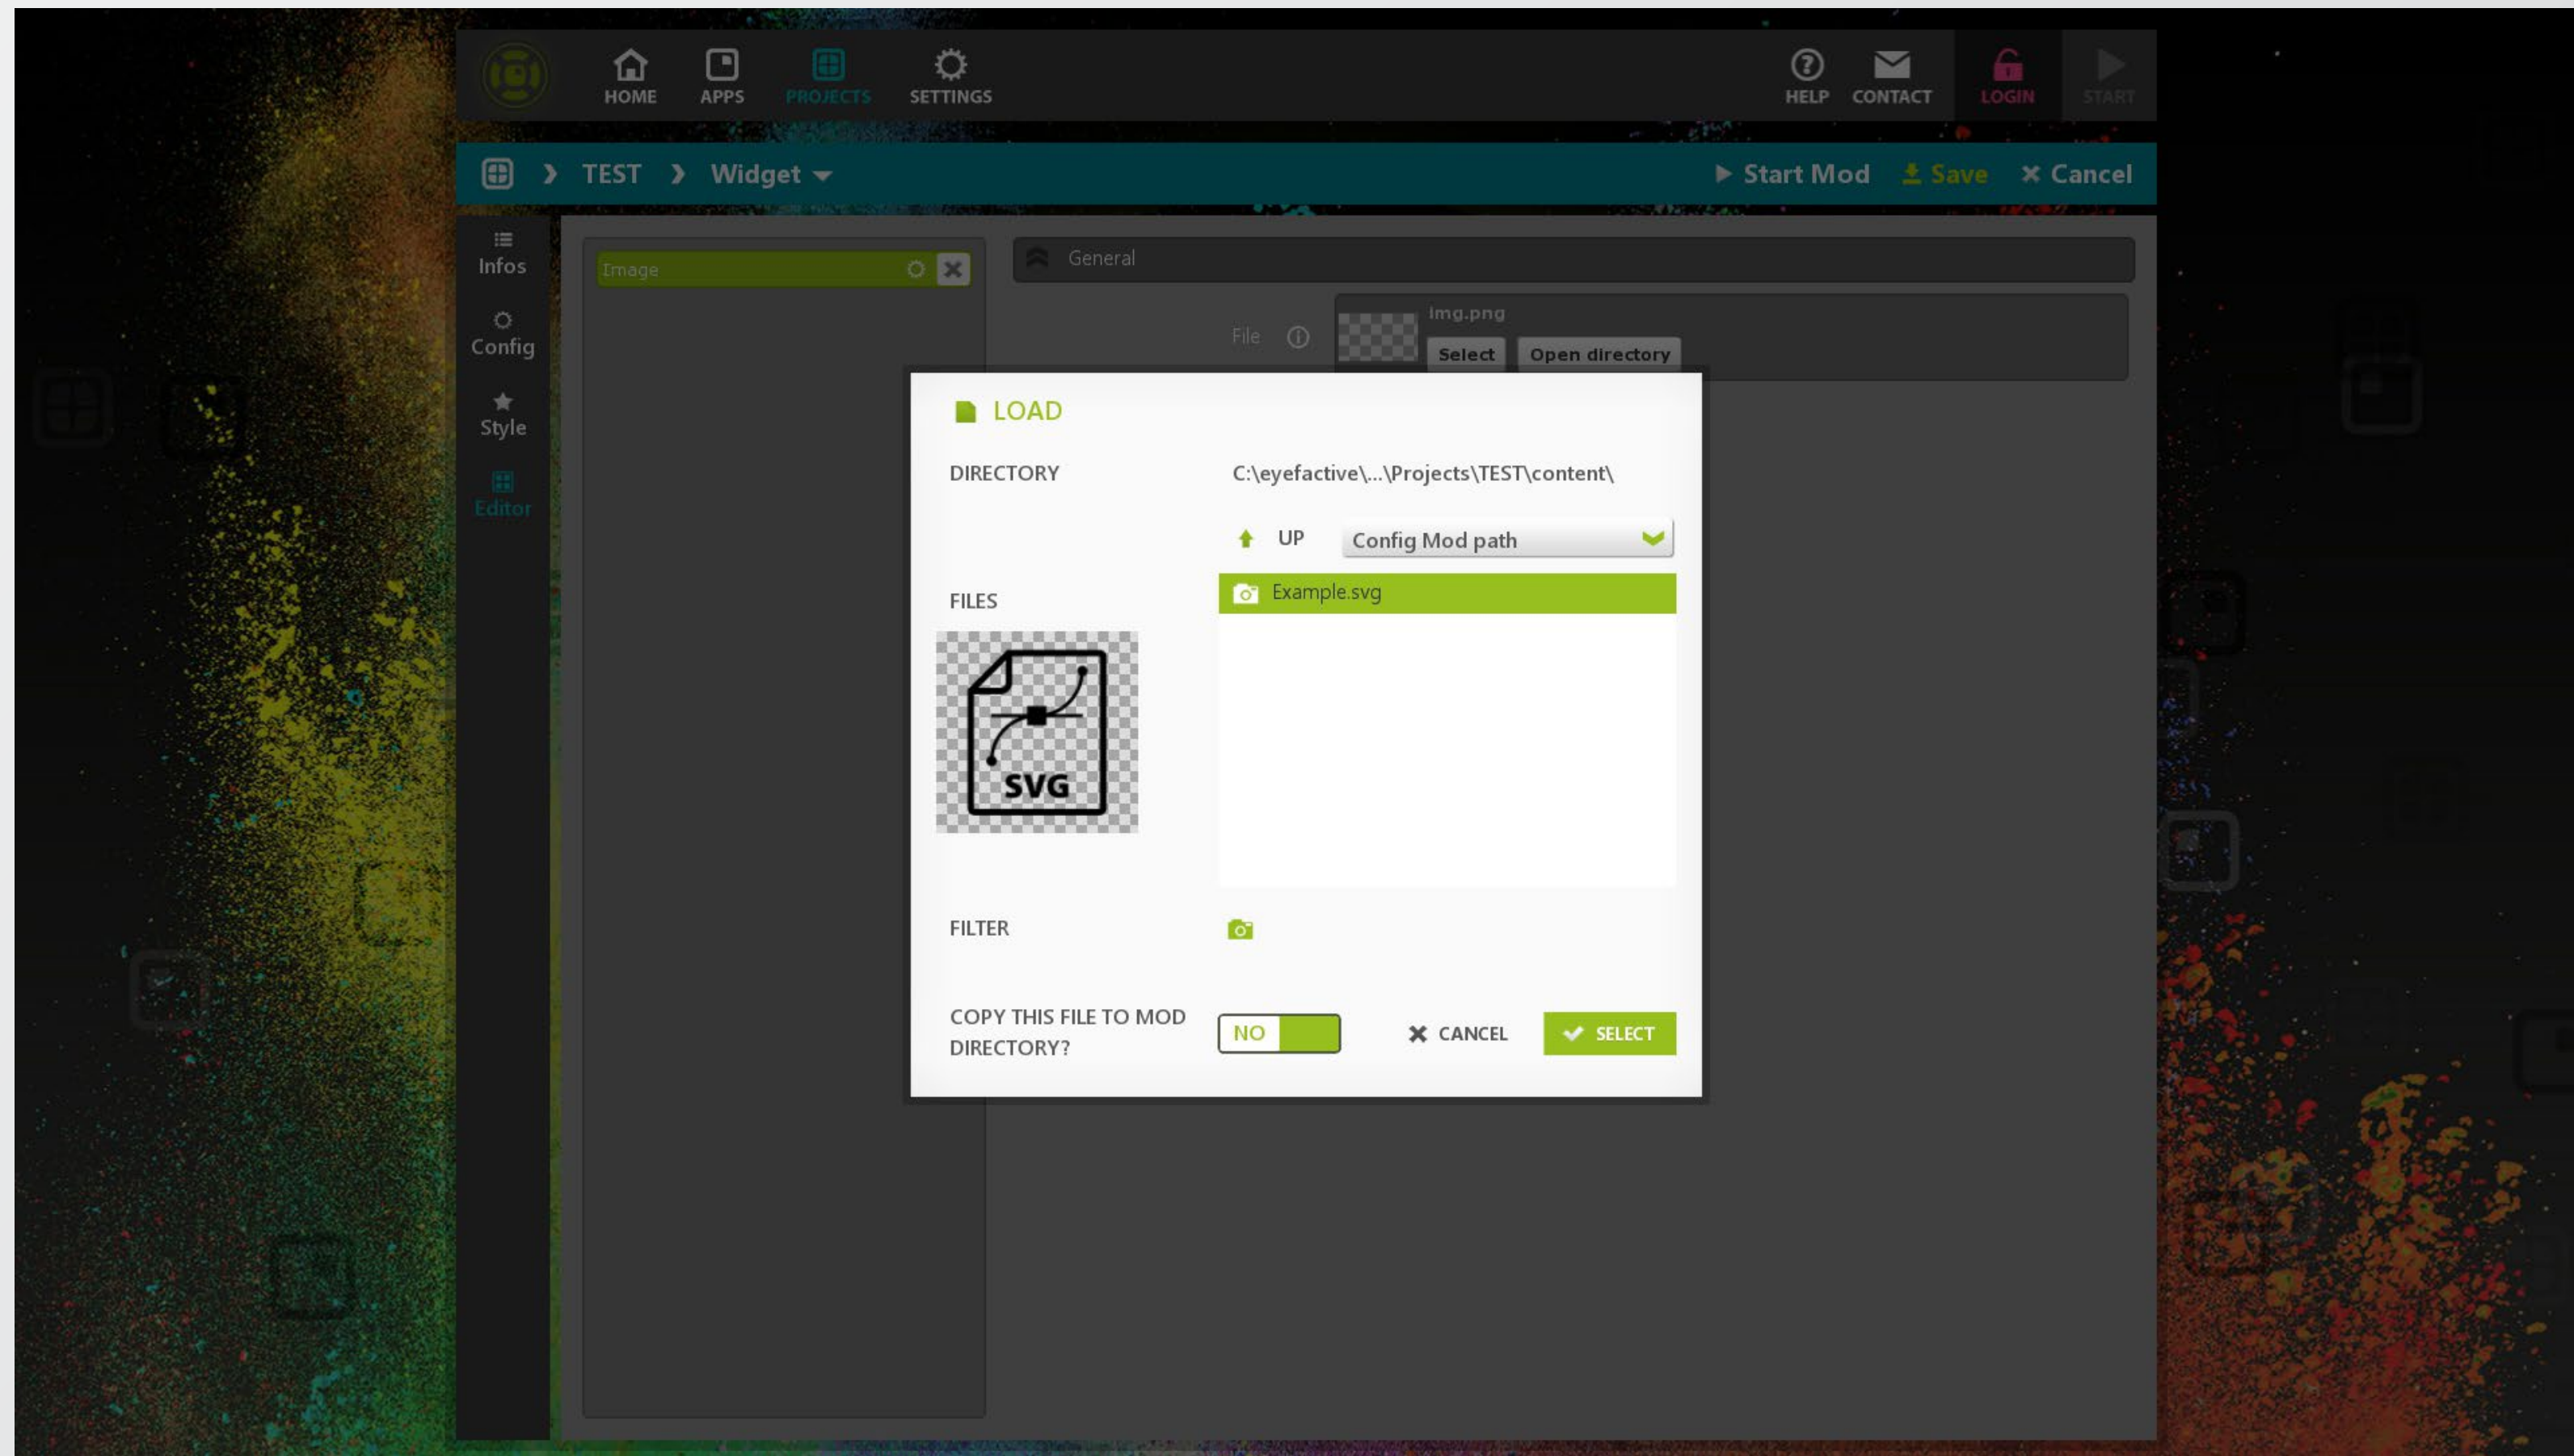

Swipe left to find out what's new!

SVG SUPPORT **NEW**

In addition to JPG and PNG, the SVG vector format is now supported as well.

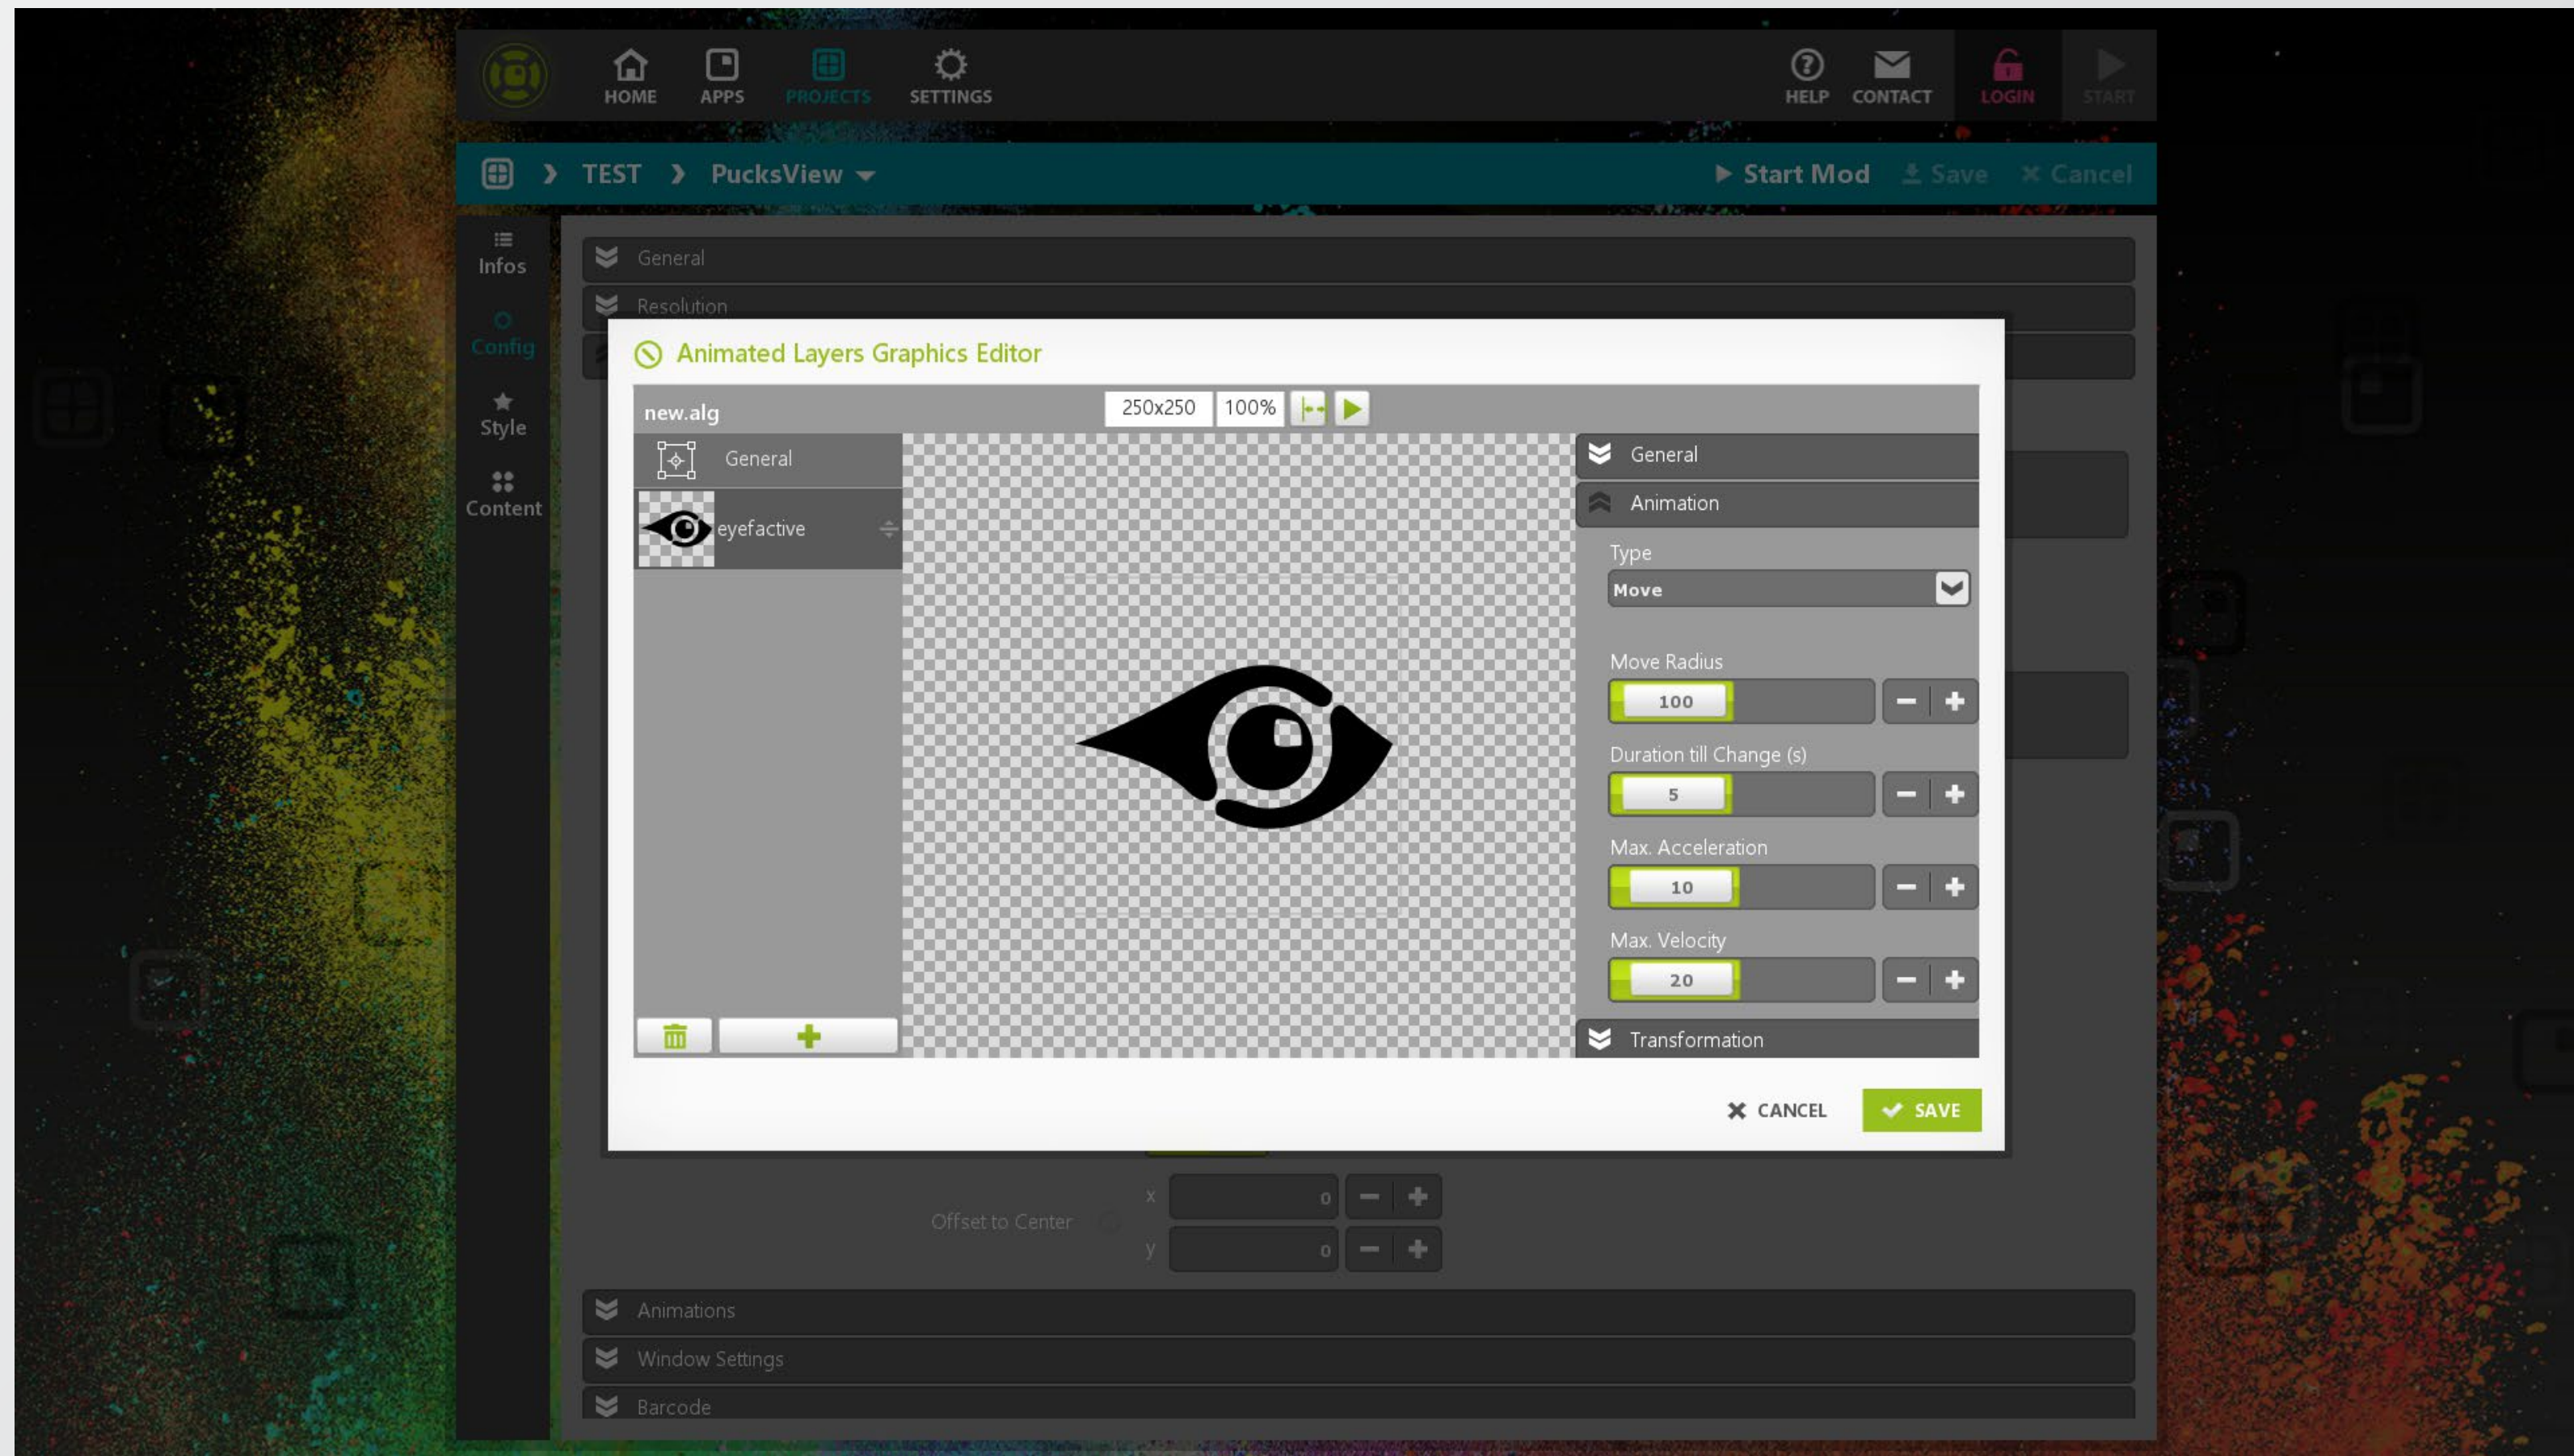

LAYOUT SCALING **NEW**

With a single setting projects and apps can now be optimized for high-resolution screens.

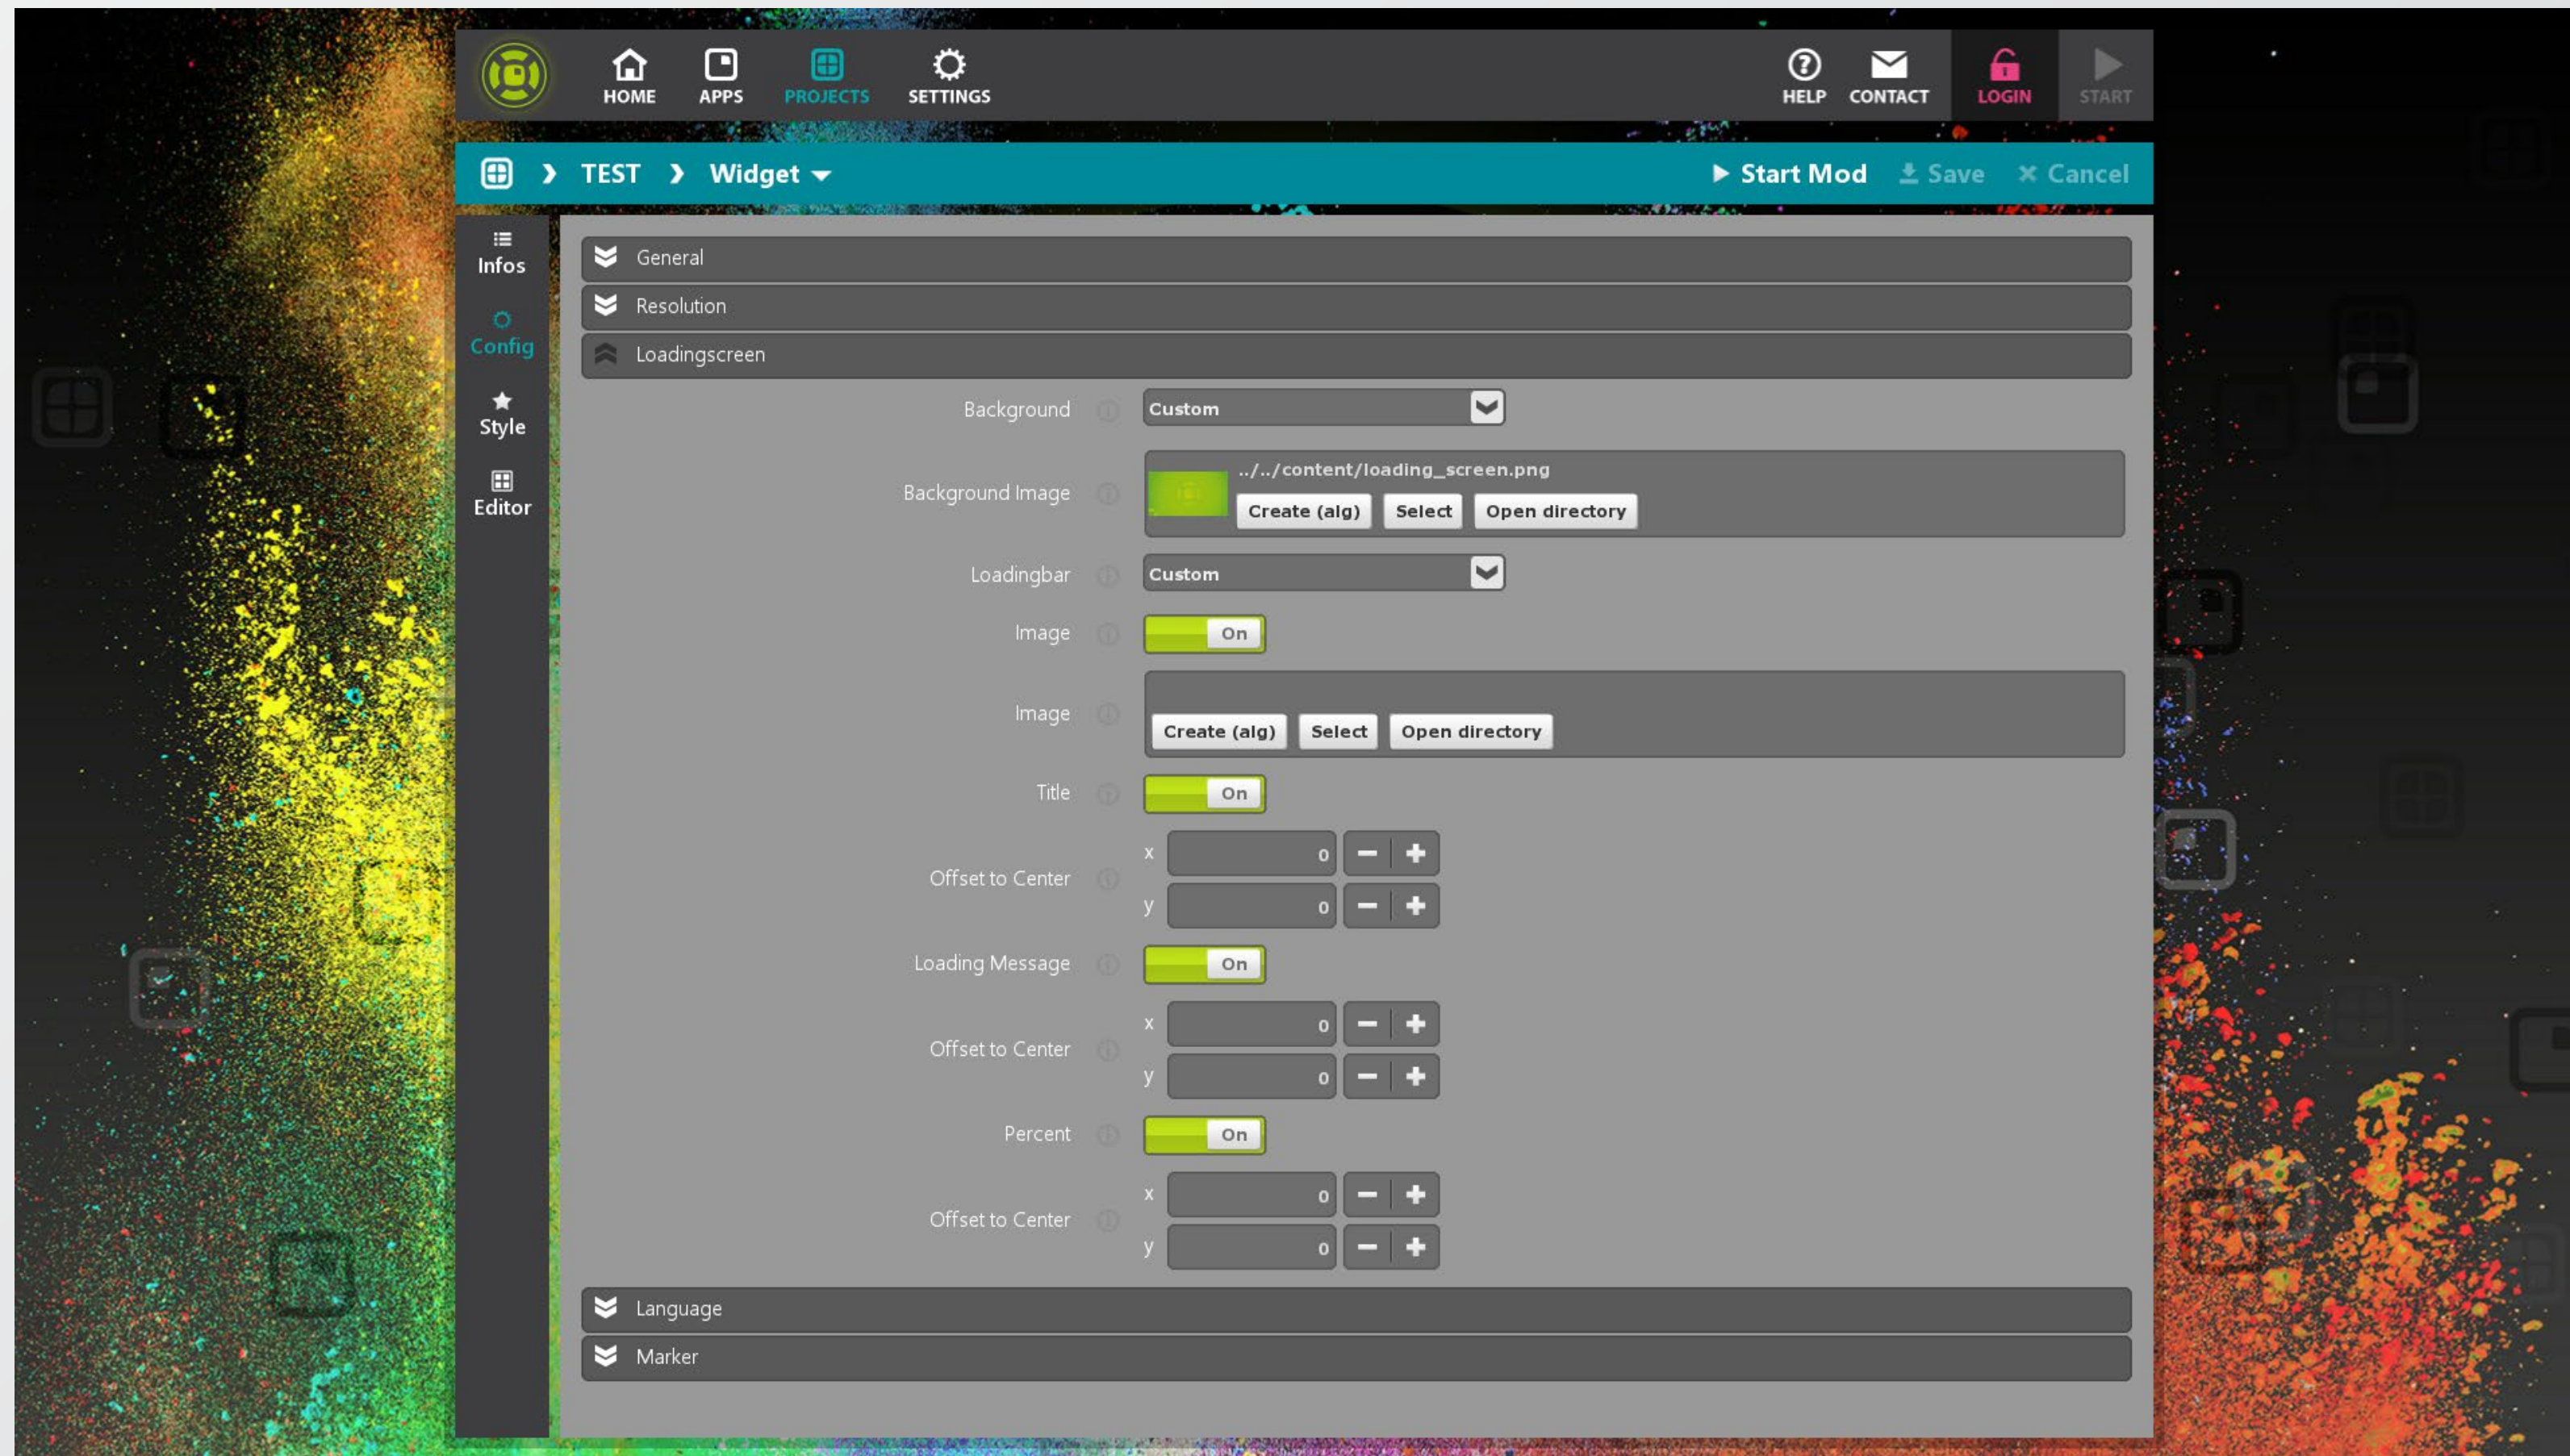

ALG ANIMATIONS **UPDATE**

Our own file format ALG offers advanced animation settings.

CUSTOM LOADING SCREENS NEW

Like with apps custom loading screens can also be configured for widgets.
