

AEON-Manual

Version 1.0

Hardware

Content

Included are: Keyboard (1), Remote: Projector (2), Remote: Timer (3), Power-Cable (4), USB-Cable (5), Mouse (6), eyeCalibrator; Flightcase (optional).

Structure & Plug-Ins

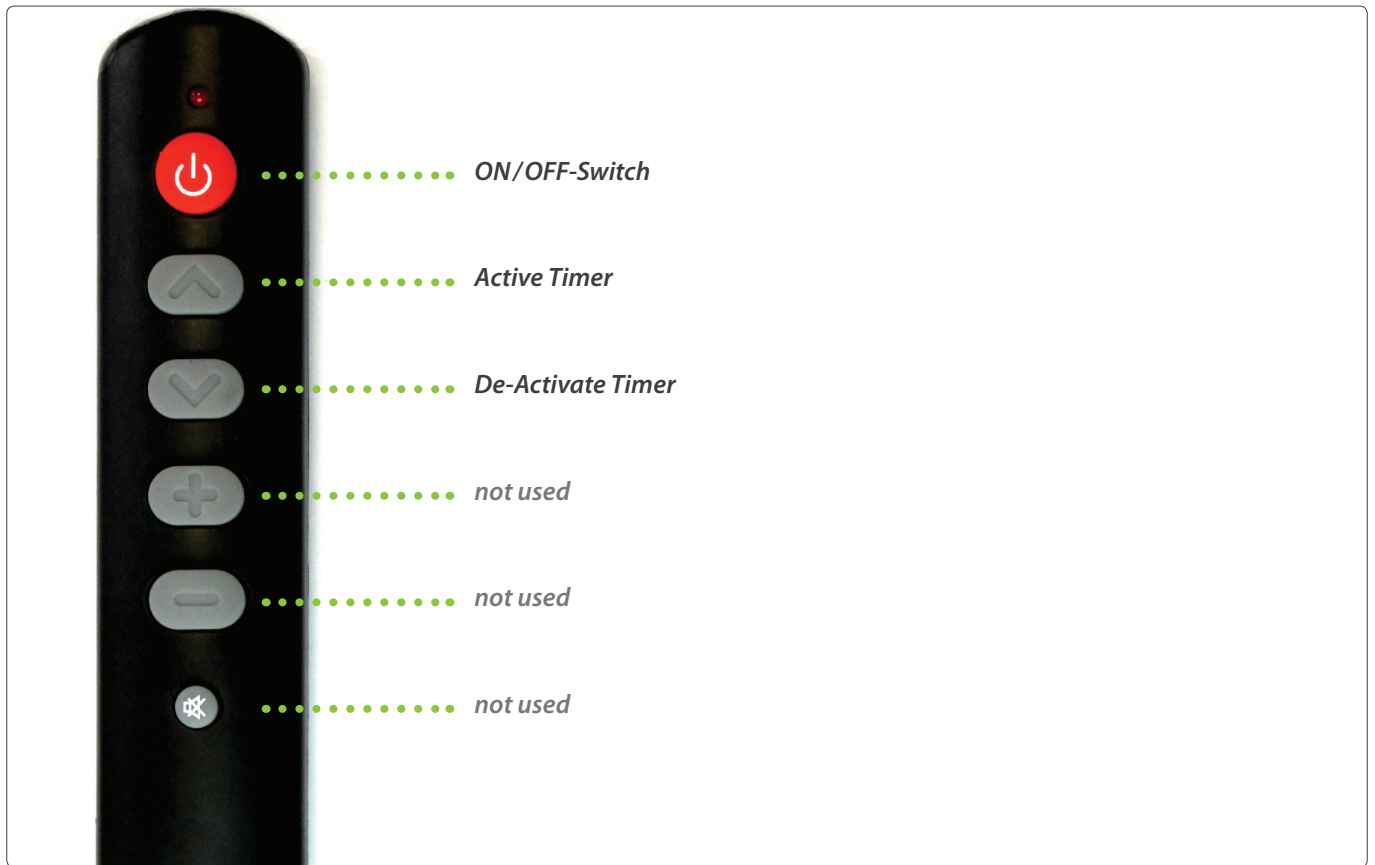

The main components of the MultiTOUCH desk AEON are: projector, pc-unit, cameras, IR-emitters, L/S-Switch, Timer-Panel. Below the AEON at one of the shorter sides is a Plug-In panel with different ports, i.e. for power and USB.

Environment

Please make sure that the AEON is positioned in a place with no direct light incidence, especially no IR light (sun, halogen-spotlights, ...).

Plug-In Panel

Remote-Control for timer settings

Please hold the buttons for at least a second, a beep indicates the activation of the corresponding button.

Power on/off

You can turn the AEON on/off manually by using the remote's on/off button. If no remote is at hand, please use the power-switch at the Plug-In panel at the bottom of the AEON.

Close Apps / AppSuite

To return to the operating system (Windows) please press the Escape-Key on the keyboard.

Timer-Panel (inside)

Flightcase (optional)

For transport we recommend the usage of the AEON flightcase. It consists of a bottom panel and two side panels with butterfly locks.

Cleaning

Please use glass cleaner and a soft cleaning rag. Do not use rough materials!

Butterfly Locks
