Interactive Omni-Channel Product-Guide for POS

Turn a visit to your store into an interactive experience: Your customers can browse through the entire digital product catalog on a large touch-screen directly in the store. The virtual shopping assistant takes them by the hand and offers various search functions to find the desired products quickly and easily.

The app supports a variety of different media formats such as product images, videos, PDF brochures or 3D models. It covers the complete customer journey: Various checkout options wrap-up the shopping experience and connect the offline world in the store with the e-commerce experience of the online world.

Omni-Channel Retail Software

The app combines the local shopping experience with the online world of e-commerce.

For all touchscreens

The app runs on all multitouch screens, tables, kiosks & videowalls.

Virtual shopping guide

Customers can easily find products and respective information.

Various checkout options

E-Mail, receipt printer, smartphone integration, mobile payment, and more...

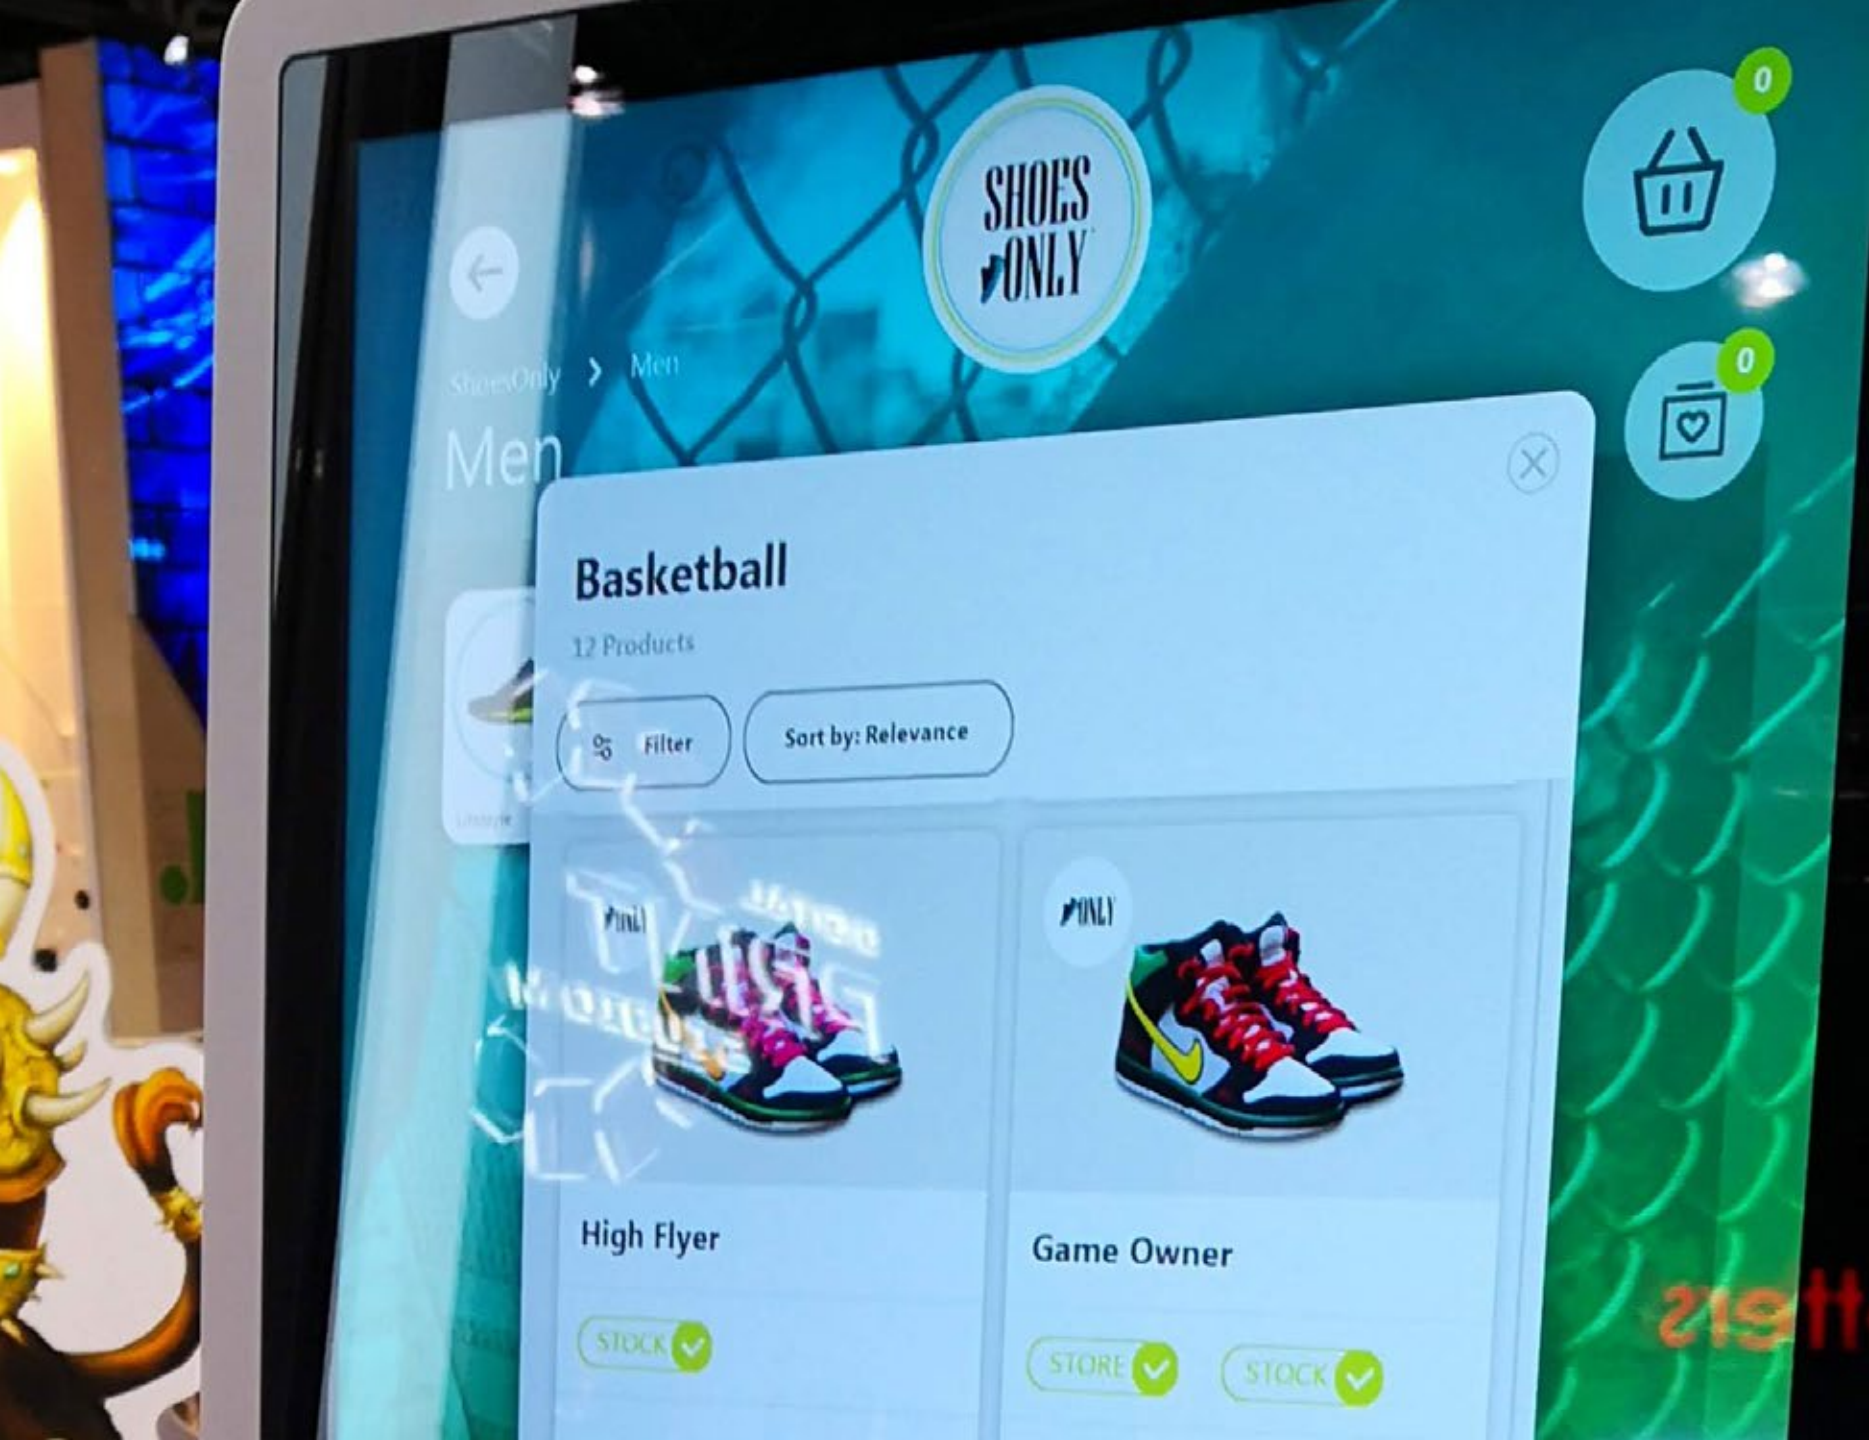

E-Commerce integration

Simply synchronize data from existing online shop systems or product databases.

Individual design

Simple customization via CMS and InApp-Editor - no programming skills required!

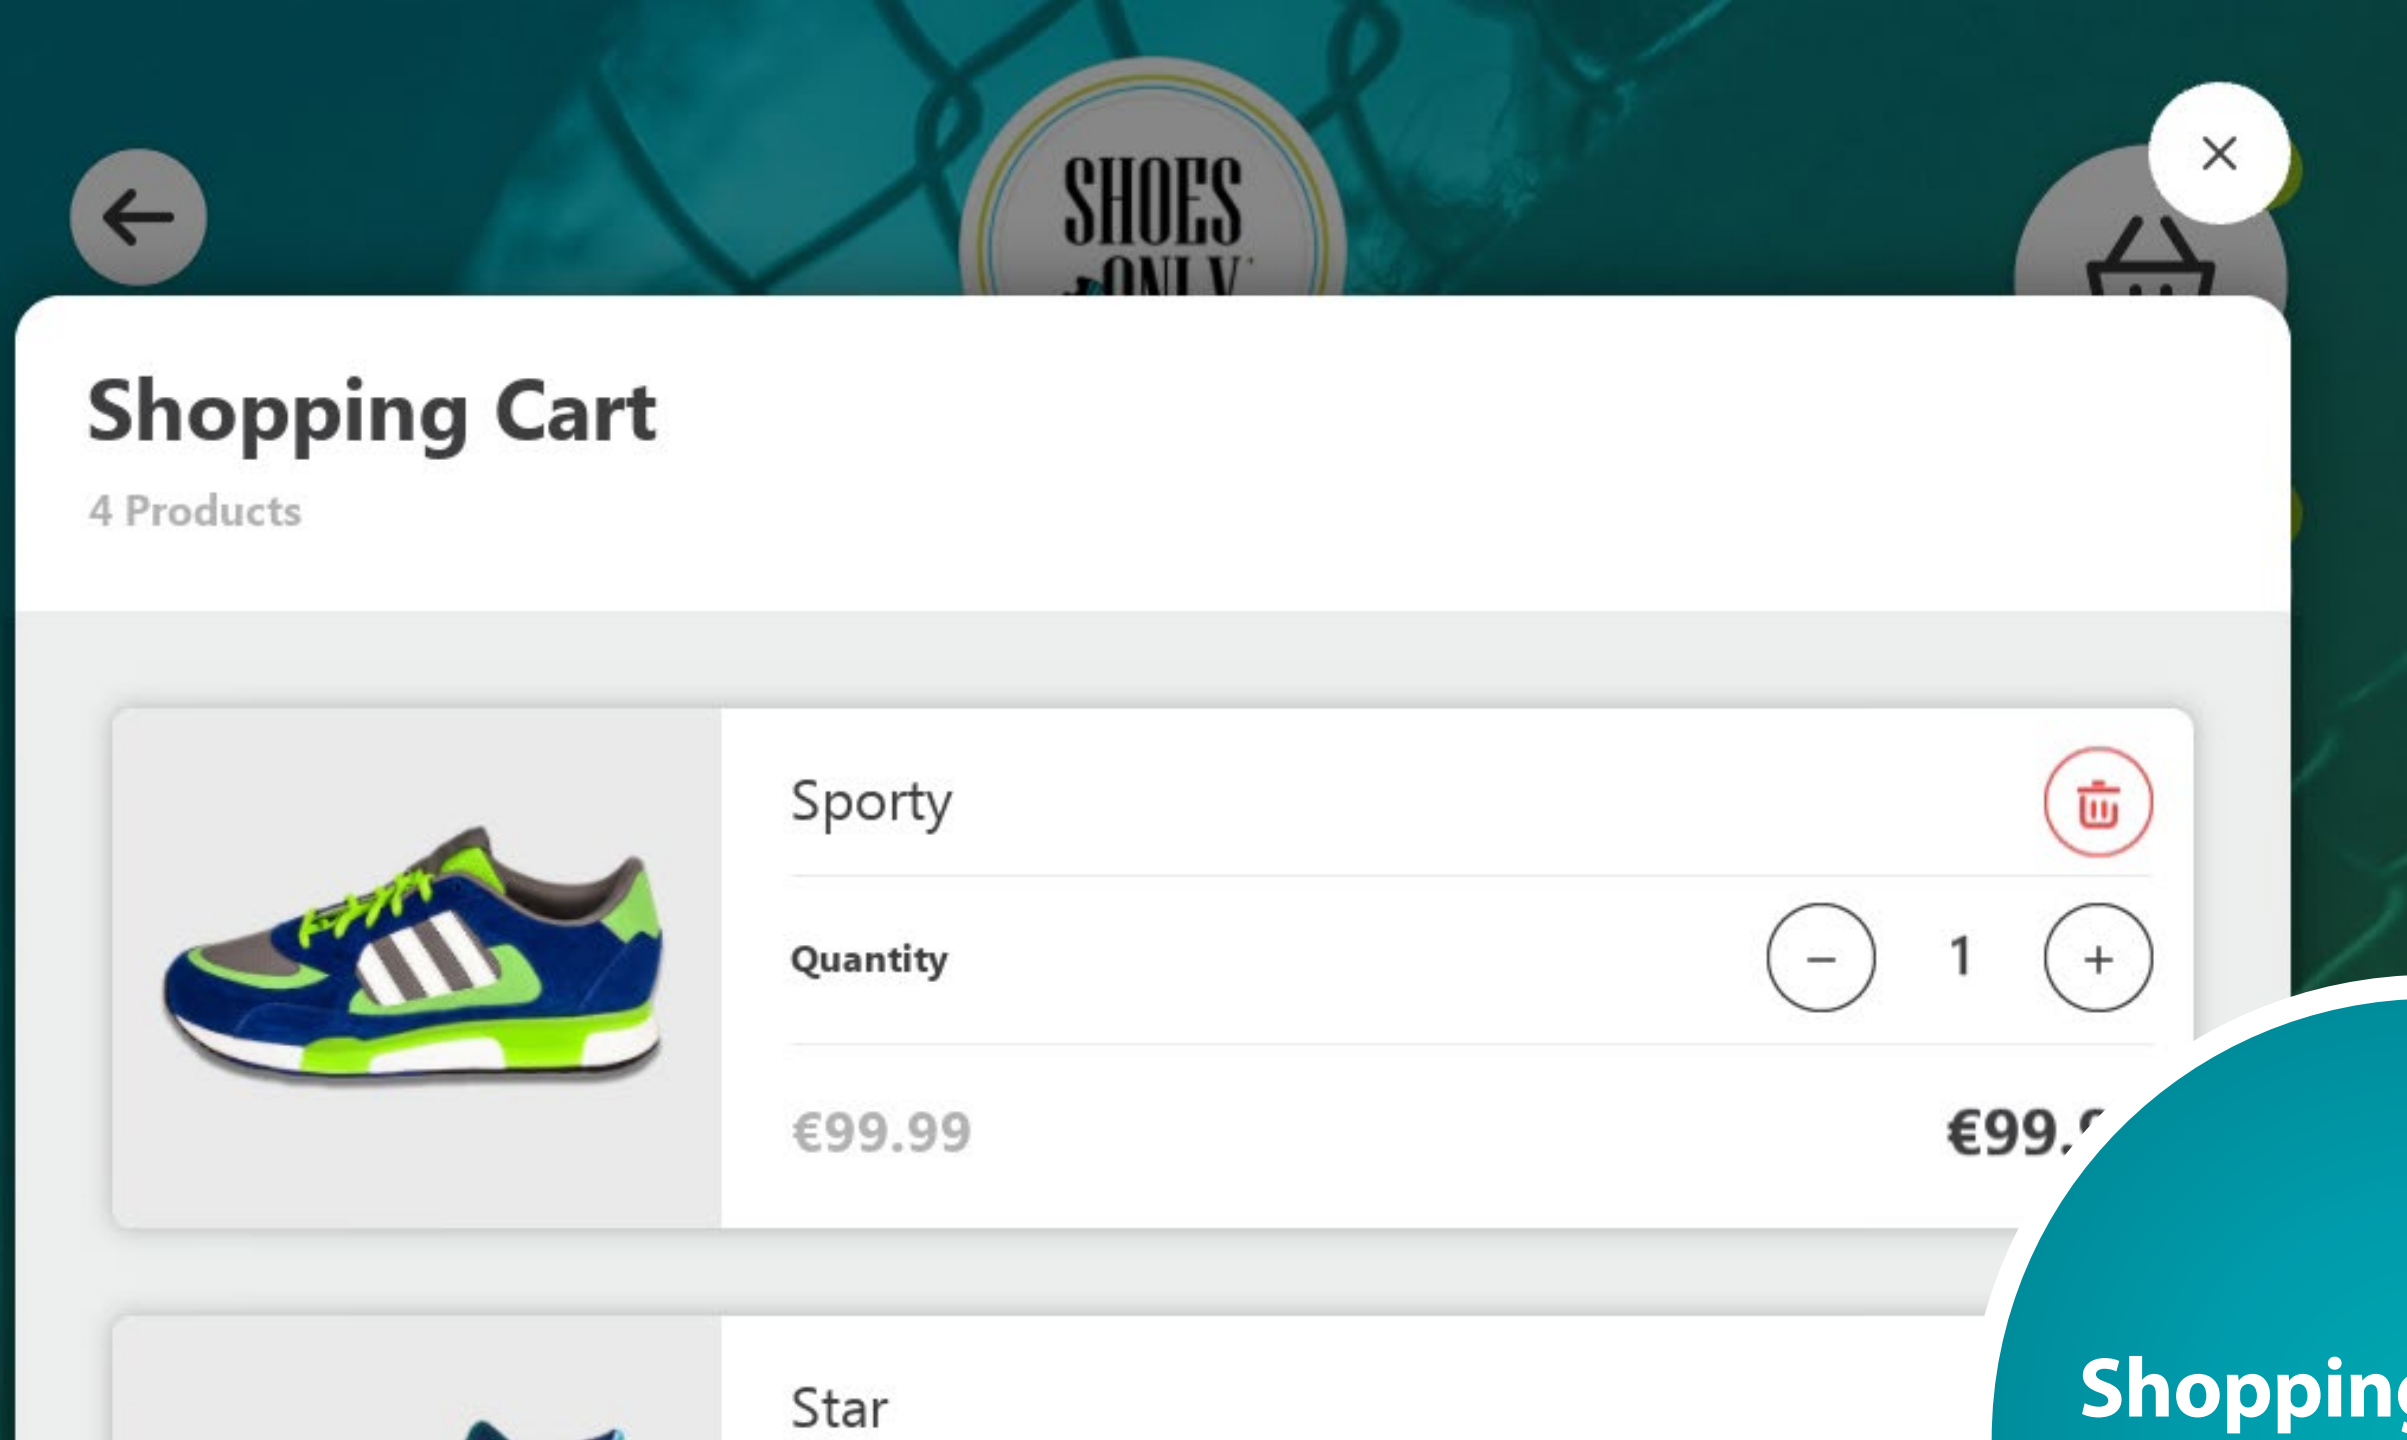

ShoppingAssistant vs. Store Shelves

- ✓ **Reduces costs**
Fewer consulting personnel and fewer products required on site.
- ✓ **Innovative product presentation**
Through multimedia information, products can be presented in a more diverse way.
- ✓ **Realtime Analytics**
You can accurately measure the input of your customers on a touchscreen - and thus effectively optimize your marketing!

- ✓ **Higher customer satisfaction**
Faster processing of customers means less queuing.
- ✓ **All products available**
Your entire product portfolio is available in digitalized form.
- ✓ **Cross-Channel Marketing**
Integration of smartphones through interfaces like QR, RFID and NFC.

ShoppingAssistant vs. Websites

- ✓ **Optimized User Interface**
MultiTouch gesture support for true smartphone feeling.
- ✓ **Advanced Payment**
Mobile payment with the smartphone, card payment and much more...
- ✓ **Security**
Compared to a browser, a user cannot exit the app or switch to another website.

- ✓ **Seamless User Experience**
High performance through offline availability of all data.
- ✓ **Integration of various interfaces**
Possibility to support voice control, face recognition, scanners, printers, and much more...
- ✓ **Integration of online shops**
Connection of the existing online store via standardized interfaces.

WHY INTERACTIVE SIGNAGE TOUCHSCREEN SOLUTIONS?

READY-TO-USE APPS

Customizing ready-to-use apps - instead of developing from scratch - saves you time, effort and money.

MULTITOUCH CONTROL

Control apps, widgets and media elements easily with intuitive touch gestures - like on your smartphone.

HIGH PERFORMANCE

Smooth operation on large-scale touchscreens in HD, UHD or other resolutions.

ADDITIONAL SERVICES

From data integration to individual development of new features.

AMAZE CUSTOMERS, BOOST SALES

Offer exciting interactive experiences at the point of sale (POS). Get maximum attention for your brands, products and services.
